LIFE AFTER Lockdown

HOW TO GO BACK TO WORK

Langstane
all your office needs

Once the lockdown is lifted, many of us will be venturing back to the office...but HOW?...we hear you say!
Until the government releases detailed guidelines, here are a few ideas that could make it all possible.

GLAZED VIRUS PROTECTION SCREEN TOPPERS

We offer a range of glazed screens to help separate working areas, acting as sneeze guards to shield against droplets without the feeling of being boxed in. These can be easily maintained and wiped clean with usual disinfectant.

HELPING TO SHIELD & PROTECT YOUR EMPLOYEES
Available in a variety of sizes with brackets to suit your desking.

Please contact us for more information.

MOBILE VIRUS PROTECTION SCREEN TOPPERS

Due to the current situation the way we interact is demanding change to encourage social distancing with the majority of us embracing working from home and a higher importance on maintaining safe hygienic spaces. However, the question remains of how to make the workplace a safe, yet inviting place to re-introduce employees to.

HELPING TO SHIELD & PROTECT YOUR EMPLOYEES

Glazed screens and sculptural additions also available in a variety of sizes with brackets to suit your desking.

Please contact us for more information.
