PERSONAL STORAGE SOLUTIONS

With so many locker styles, configurations, and colours; choosing the right solution can seem daunting.

Whether you are looking for a locker for a fitness centre or the local primary school, there are many things you must first consider in order to make sure that the lockers deliver the standards of quality and durability you require. Many factors help determine which locker is right for your needs.

Location - A locker designed for use in a pool area is constructed from different materials to a locker designed to go into an retail changing area. Aluminium and plastic lockers are ideal for wet area environments, whilst steel lockers are ideal for educational, industrial and healthcare 'dry area' usage.

Functionality - How will people use the locker? Fitness centres often choose a quarter height locker as the storage is for valuables. Factory personnel need ample space and length to accommodate wet and dry hanging clothing and work boots. For students the storage of bags and sports equipment could be the driver.

Locking Mechanism - In order to determine the best lock type for your locker you need to consider Security vs. Convenience and Permanent vs. Temporary. If maximum **security** is your main concern, the best (and most secure choice) for lockers are padlock hasp locks. If **convenience** is also important to you, keyless lock options are a great choice. Users will not have to worry about padlocks or keys to gain access to the locker. **Permanent** use means the individual stores their personal belongings in the locker and returns to this locker regularly. Permanent lock solutions include key locks, padlock hasp locks and digital combination locks. **Temporary** use means the user selects an unused locker, secures their belongings for a limited period of time, and then vacates the locker. Another person can then re-use this locker. Temporary lockers can have multi-user locks, where a combination is set by one person for one-time only.

Information overload? Too much choice!

Don't worry we are here to help. Get in touch to arrange a free consultation to discuss your requirements.

QUALITY DESIGN & UK MANUFACTURING

The market leader in personal storage solutions for over 60 years, Link is part of the Whittan Group; the UK's largest manufacturer of storage equipment.

We will work with you to ensure you achieve the best solution - using site surveys and detailed design proposals to ensure we manufacture, deliver and install the perfect solution for you.

Quality is key in our UK manufacturing locations. Our factories operate quality systems in accordance with the latest ISO standards and NEBOSH regulations.

Thanks to versatile production methods, you get an extensive range of locker types, sizes and colours to suit your specific requirements. Our central location in the UK, makes us ideally placed to keep in touch with you and respond directly to your needs.

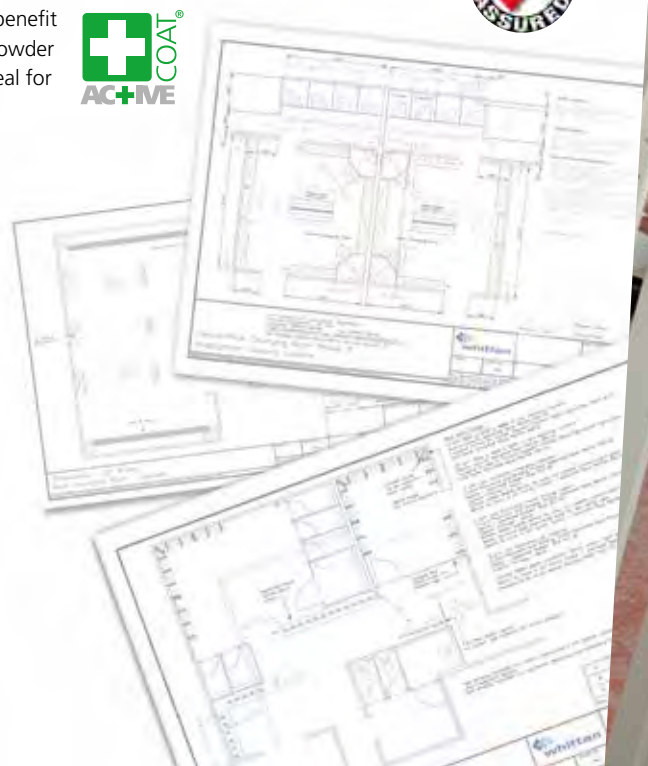
Link standard duty lockers have been tested and conform to the requirements of the British Standard for Clothes Lockers BS 4680: 1996 'Standard Duty'.

All our Lockers and Cupboards benefit from ActiveCoat anti-bacterial powder coating, making our products ideal for hygiene sensitive locations.

Products are designed, manufactured and installed under a quality management system which complies with the requirements of the International Quality Standard ISO 9001:2008.

ISO 14001 is the internationally recognised standard for Environmental Management Systems (EMS).

OHSAS 18001 is the certification specification for Occupational Health and Safety Management Systems.



LOCKERS FOR EDUCATION

All students, whether in primary, secondary and tertiary education – benefit from secure personal storage for items such as clothing, bags or sports equipment.

Having provided lockers to schools and colleges across the UK for so many years, we are proud to be able to help improve the environment in which we educate our nation. Our lockers are available in a wide range of sizes, configurations and materials; ensuring you get the right products, on-time, every time, at an affordable price.

Cube lockers (page 13) can be stacked to create banks of individual storage. This is an ideal solution for optimising space within primary schools.

Seating and **Benching** is manufactured in three heights to cater for different age groups (page 20).

Replacing hooks and pegs with lockers can reduce risks such as trip hazards, children losing clothing and blocked emergency exits. To better suit these younger children, **Half Height** and **Three-Quarter** lockers (page 11) are the best options. These locker options are included in our **Everyday** metal locker range (page 10). The lockers shown are fitted with sloping tops to keep their tops clear of items.

Plastic lockers (page 26) opens up a whole new range of locations; releasing valuable indoor space for other uses. Available with optional outdoor weatherseals and waterproof locks.

Charging lockers (page 17) offers secure storage of laptops and tablets, (whilst they are charging) making them ideal for educational use.

This University Sports centre offers **Digital Combination** locks (page 27) within it's changing areas, on its **Everyday** metal lockers (page 10). This allows the locker to be used by multiple users throughout the day, reducing the number of locker compartments required and the need for keys.

Laminate door lockers provide a robust and hard wearing solution for secondary schools coping with their high footfall and use (page 23). This locker installation called for a dramatic monochrome colour palette, with accent colours accentuating the minimalist decor.

LOCKERS FOR HEALTHCARE

When it comes to providing personal storage & uniform dispensing lockers to the NHS & other healthcare settings, we have an unrivalled wealth of experience.

Changing room facilities are a vital component in hospitals and are expected to provide staff and visitors secure and practical storage, whilst complying with stringent health and safety standards. All our lockers feature ActiveCoat protection; which is a silver coating that reduces harmful bacteria on treated surfaces, ensuring consistent hygienic standards.

Uniform lockers are specifically designed for the storage of uniforms within the workplace. They provide staff with their own secure space to store work-wear and personal items easily, neatly, and securely (page 14).

Two Person lockers incorporates 2 lockers for 2 users - each unit comprises of a full width section at the top of the locker and two compartments underneath, side-by-side. Each user has one key to open their 2 compartments (page 14).

We also manufacture a range of cupboards that are extremely useful in the NHS and other healthcare settings; including **Hazardous Substance Storage Cupboards** (page 30).

A mix of locker door configurations were used to create this hospital changing room. To help keep the facility tidy, sloping tops were fitted and to aid cleaning, the lockers sit on support frames.

At this hospital, catering staff have **Garment** lockers (page 15) integrated into their locker configuration, enabling them to dispose of used clothing safely and hygienically at the end of each shift.

Our **Seating** and **Benching** (page 20) is available with Polymer slats that incorporates ActiveCoat protection; which reduces harmful bacteria contamination.

LOCKERS FOR EMERGENCY SERVICES

Well-designed lockers and storage for Emergency Services is vital, as fast access to changing facilities can make an impact on rapid response time.

Lockers and changing rooms need to cater for bulky heavy uniforms and need to give fast access to specialist equipment such as PSU and PPE. We understand these unique requirements and have worked closely with various services to develop our locker solutions, ensuring they meet these unique demands.

We also provide specialist locker solutions, which includes secure electronic device charging (such as Airwaves radios and garment management lockers), which are perfect for storing, distributing and collecting uniforms at the beginning and end of each shift.

PSU equipment can be stored under seating and lockers to fully optimise the changing room area.

A bank of **Small Item** lockers provides safe storage of mobile phones for restricted area visitors (page 13).

Colour coded **Everyday Metal** lockers match the 5 watch system at this station, ensuring fire fighters easily identify their locker quickly (page 10).

PSU equipment can be stored under seating to fully optimise the changing room area. Our Locker specialists can help advise you on the best solutions.

Vision Panel lockers allows stored item inspections, without having to open the locker. This has proved popular in custody suites (page 18).

Police lockers meet a wide range of requirements; including CS cannister and Airwave storage (page 16).

Utility and **Crew** lockers offer various compartment configurations to meet various needs, which keeps work and personal items separate (page 14).

LOCKERS FOR MANUFACTURING & INDUSTRY

We have a vast range of lockers to suit staff requirements, whatever the company size.

Our steel lockers are available in a wide range of sizes and door configurations to meet personal storage requirements; whether in the workplace or in a fully fitted on-site changing room.

We offer Garment lockers for staff to separate clean and dirty uniforms (or overalls) at the end of each shift. We also offer Utility lockers, designed to keep personal clothes separate from working clothes.

All our steel lockers benefit from ActiveCoat antibacterial protection as standard, which reduces harmful bacteria on treated surfaces.

Charging lockers provide safe storage; whilst charging your electronic devices (page 17).

Everyday metal lockers (page 10) with Activecoat, **Sloping Tops** *and* **Stands** (page 19) keep changing rooms hygienic.

Garment lockers offer a solution to the issue of separating clean and dirty uniforms, by adding custom sections to the lockers. Workers can dispense and collect uniforms in different compartments; maintaining hygienic practices (page 15).

The ActveCoat protection on our lockers mean they are extensively used within the food production industry. This is an added benefit where stringent hygiene standards have to be maintained.

Seating and **Benching** (page 20) is available with Polymer slats which incorporates ActiveCoat protection; which reduces harmful bacteria contamination, making them ideal for the food processing sector.

Everyday metal lockers (page 10) are ideal for warehouses. They are perfect for storing workwear or overalls and general employee personal storage.

LOCKERS FOR RETAIL

From the back of store staff to Head Office; we have the right storage solution for your staff.

Providing secure personal storage lockers for a large retail workforce can take up a lot of valuable space (that could otherwise be used for holding stock). Understanding staff requirements, shift patterns etc, helps us design the right solution; improving user efficiency and welfare (whilst minimising space requirements).

We can also provide secure storage and charging for hand-held devices, lockers for Click and Collect areas and a wide range of cupboards for use throughout stores.

For your Head Office we have everything from Gloss door lockers (in a range of contemporary colours), to Vision panel lockers for receptions. We can supply lockers for hot desking, laptop charging, garment hanging, post and cycle to work.

All our locker ranges are robust and hardwearing; making them ideal for high footfall environments and ensures a long working life.

As well as providing secure storage for employees' personal items, provision for dispensing/collecting specialist clothing should also be considered.

A great way to facilitate the implementation of a hot desk policy, Stacked **Cube** lockers (page 13) offer employees a secure space to store their personal and company belongings when not using a work surface.

A bank of **Small Item** lockers (page 13) provides secure storage of mobile phones outside restricted areas.

Charging laptop lockers (page 17) are the ideal solution to secure laptops and small electronic devices throughout the Retail sector, whilst charging items.

Vision Panel lockers (page 18) allows personal item inspections, without having to open the locker. Ideal for receptions where security procedures require visitors to leave their possessions whilst visiting (or as an anti theft deterrent).

LOCKERS FOR LEISURE

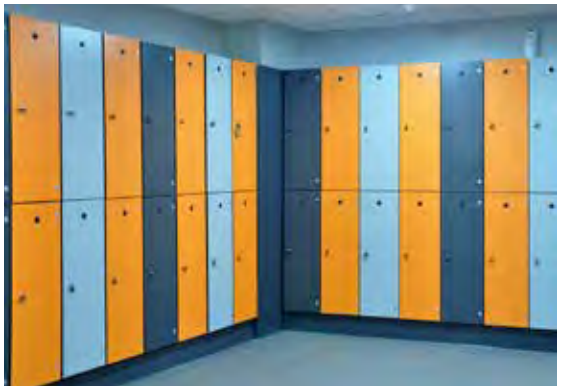
Whether you run a budget gym, leisure centre, spa, sports club or public swimming pool; we have the lockers to suit your requirements.

With many facilities now accessible round the clock, the need for secure storage for personal possessions and valuable items is vital for users. Link leisure lockers are robust and hard-wearing.

Available in a range of finishes, suitable for both wet and dry areas, our lockers can be tailored to meet your specific needs, with a choice of locking solutions, integrated bench seating and the ability to reflect brand colours via coloured doors.

For wet area locker changing areas, **Plastic** lockers (page 26) could be the solution. As well as being rust proof, they are easy to clean. We also have a vast bench range to complement your locker installation (page 20).

Aluminium lockers with laminate doors (page 25) offer the perfect choice for demanding wet area environments.



With today's gym and fitness centres opening around the clock, the requirement for lockers to be robust and hard wearing is essential. **Everyday** metal lockers (page 10) meet these needs.

MDF Laminate door lockers offer a more economical and stronger alternative to lockers constructed wholly from timber. Suitable for commercial applications where an enhanced appearance is essential (page 24).

Wide range of **Seating** and **Benching** available with either ash or polymer food grade slats (page 20).

EVERYDAY LOCKER

Door Colours - page 13

ACTIVE COAT®

A range of steel lockers are available in various heights, but all share the same footprint; making them ideal for fitting into runs under windows (or obstructions), in order to maximise space.

- All lockers feature ActiveCoat antimicrobial technology, which is incorporated into the paint finish, offering constant protection against a wide range of bacteria.
- Wide range of optional locks for security, convenience and on-site management.
- Available with solid or perforated doors (ideal for ventilation and keeping items secure).
- Sloping tops are also available (page 19).

FULL HEIGHT LOCKER

Suitable for a wide range of applications; our standard duty full size metal lockers are 1800mm in height and are amongst our most popular models.

- Single door lockers have a fixed top shelf, with a garment hanging rail (except 300mm deep) with two coat hooks.
- Two door lockers have a garment hanging rail (except 300mm deep) and two coat hooks in each compartment.

Height -1800mm	
Widths mm	Depths mm
225	300
300	380
380	450
450	600

THREE-QUARTER HEIGHT LOCKER

Link Three-Quarter height lockers are ideal for use in primary schools; allowing easy access for school children.

- You can have all of your locker doors painted in the same colour, or you can create a bright and engaging colour pattern which features different colours on each door.
- Single door lockers have a fixed garment hanging rail (except 300mm deep) with two coat hooks.

Height -1382mm	
Widths mm	Depths mm
300	300
380	380
450	450
	600

HALF HEIGHT LOCKER

Ideal for use in primary schools; allowing easy access for young children. Can be fitted with worktops to create additional workspace.

- Use colours for branding or to brighten up a classroom.
- Single door locker has a fixed garment hanging rail (except 300mm deep) with two coat hooks.

Height - 900mm	
Widths mm	Depths mm
300	300
380	380
450	450
	600

SIXTO LOCKER

Versatile lockers that can be bolted together to create banks of storage space for small items; making the most of awkward spaces.

- Sixto lockers can be used with other lockers, including under seats to offer further storage.

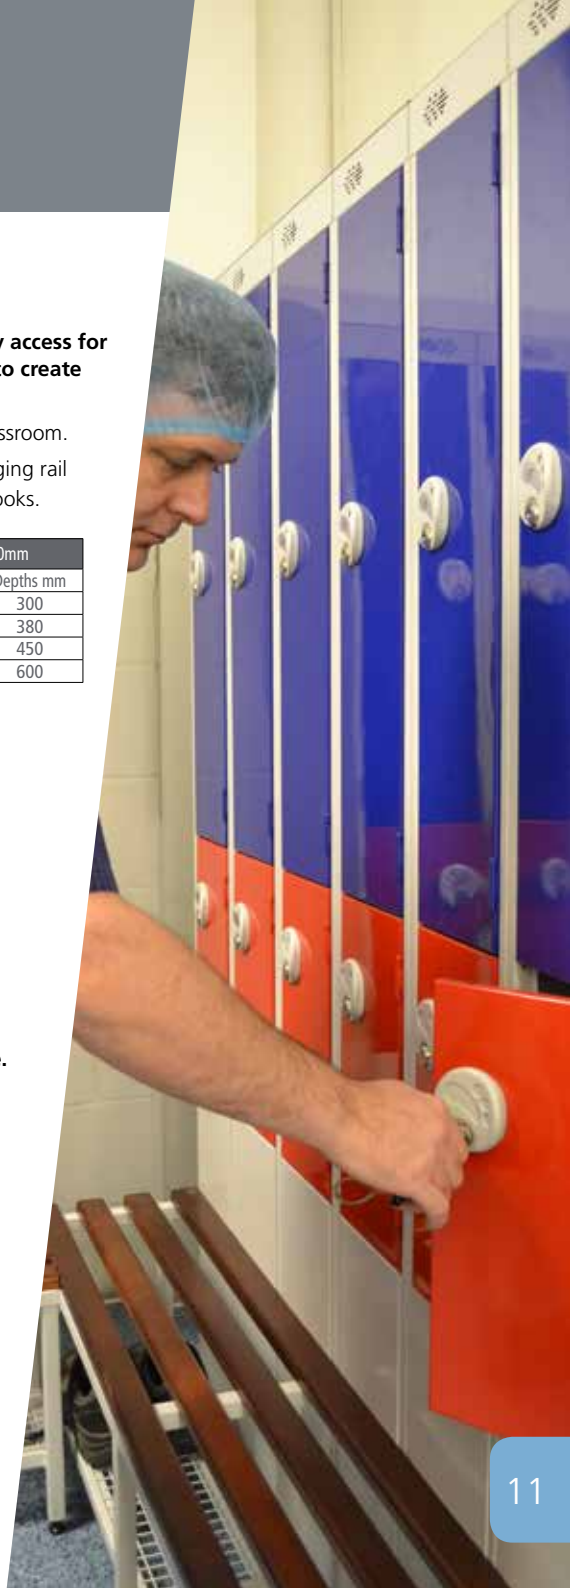
Height - 372mm	
Widths mm	Depths mm
225	300
300	380
380	450
450	

QUARTO LOCKER

As the name suggests these Quarto lockers are a quarter of the size of a full height locker. They can be bolted together to create effective storage space.

- Can be used in conjunction with a bridging unit, to make use of available height, creating useful storage solutions, like above a hanging garment rail, (as shown in the image to the left).

Height - 511mm	
Widths mm	Depths mm
225	300
300	380
380	450
450	



PERSONAL STORAGE

For compact storage solutions (for smaller personal items, such as phones or bags); our range of small compartment lockers offer a safe and secure solution and efficiently uses space in workplace environments.

For electronic devices that need to be charged around the workplace, whilst left unattended, our in-charge lockers provide a secure facility.

SMALL ITEM LOCKER

Small item lockers provide secure storage for small, but valuable, possessions in public areas and throughout the working environment.

- Choose from 4 or 8 doors in nests of 1 or 2.
- Choice of plain or perforated doors, sloping or flat tops.
- Units can be hung on walls, fitted on top of each other or side-to-side.
- Fitted with deadlocks as standard.

CUBE LOCKER

Cubes - as the name suggests - have an equal height, width and depth; allowing combined stacking of units on the floor or on support frames.

- Versatile and compact all steel single door cube lockers; popular for personal effects and bags.

Height mm	Width mm	Depth mm
300	300	300
380	380	380
450	450	450

WORKWEAR LOCKERS

UTILITY LOCKER

Utility lockers have additional internal configurations and door options to suit specific requirements, such as clean/dirty compartments, uniform hanging, or two person lockers.

- Finished with antibacterial technology, which is incorporated into the powder coating.
- Sloping tops are also available (page 19).

Lock Options - page 27

Door Colours - 13page

ACTIVE COAT®

Height -1800mm	
Width mm	Depth mm
450	450

Uniform Locker

- Fixed top shelf.
- Central divider.
- Hanging rail and hook.
- Three fixed shelves.

Clean & Dirty Locker

- Fixed top shelf.
- Central divider.
- Both divided compartments have a garment hanging rail and coat hook.

Two Person Locker

- Users have a three quarter length compartment with a separate full width compartment opened with the same key.
- Hanging compartment has two coat hooks.

DOOR COLOURS

Paint finish includes ActiveCoat protection as standard.

Colours are applied electro-statically as an epoxy-polyester powder coat, then baked to provide a high quality, durable finish.

GARMENT LOCKER

Managing the issue of workplace clothing - often via third party laundries - is an essential part of hygiene procedures in many sectors. Integral anti-bacterial protection is standard on all of our garment issue lockers.

- Sloping tops are also available (page 19).
- Fitted with Deadlock, with 2 keys.

Lock Options - page 27
Door Colours - page 13

5, 10 and 15 Door Dispensers

Designed initially for work-wear, these lockers are equally suitable for the controlled issue of safety equipment, consumables or specific materials required for a working day or shift.

Garment Dispenser lockers provide each worker with key access to their secure compartment; to collect a freshly laundered issue of clothing. Compartment doors are inset within the main full-height door, which remains locked. The full-height main door allows access to all of the individual compartments, for re-stocking with laundered clothing.

Workers 'post' their used garments into an adjacent Collection locker. This separation of clean and used items can can help in maintaining a hygienic working environment.

Collector

- Full-height door.
- Galvanised anti-theft shelf, angled inside 'post slot'.
- Hooks for laundry collection sack (sack not included).

Height -1778mm	
Width mm	Depth mm
381	457

5-Door Collector & Dispenser

- Half-height upper 'issue' door with 5 compartments.
- Lower 'collector' door with 'post slot'.
- Hooks for laundry collection sack (sack not included).

Laundry Locker

Top compartment can be opened independently to the main locker, to allow clean work-wear to be deposited by a laundry service.

- Double-width top shelf, shoe compartment and hanging space.

Height -1800mm	
Width mm	Depth mm
380	450

WORKWEAR LOCKER

POLICE LOCKER

We offer a variety of Police Locker solutions. From the storage of 'Airwave' radios to PSU bags, we have the right solution for police forces throughout the UK.

- Fixed and sturdy top shelf, heavy duty hanging rail and coat hook for easy clothes storage.

Height -1800mm	
Widths mm	Depths mm
450	600
600	600

Lock Options - page 27

Door Colours - page 13

Standard Police Locker

- Fixed and sturdy top shelf, heavy duty hanging rail and coat hook for clothes storage.

Locker with Lockable Cube

- Lockable cube on door with clear perspex front.

Locker with CS Cannister Holder

- CS Cannister holder.

Locker with Airwaves & CS Cannister Holder

- Airwaves compartment.
- CS Cannister holder.

CHARGING LOCKER

Lock Options - page 27
Door Colours - page 13

With trailing cables, the risk of theft, health & safety issues and finding access to safe and protected power points, charging lockers have been specifically designed to help overcome these issues and provide a secure, easy and safe solution.

- Lockers are fully portable as a single unit - simply place the unit in a convenient location, plug the unit into a power point and the lockers are ready to use.
- Finished with antibacterial technology, which is incorporated into the powder coating for a cleaner locker.

For **LAPTOPS**

These purpose-designed locker units provide a safe sanctuary for charging laptops and real peace of mind for users.

- Choose from 1, 5 or 10 doors.
- Full height locker accommodates ten laptops.
- Half height locker accommodates five laptops.
- Single door version allows access to all compartments under one key.

Height - 900 or 1800mm	
Width mm	Depth mm
450	450

SPECIALIST LOCKERS

Range of lockers designed to meet specific purposes. Vision door lockers are used widely in retail, preventing lockers being used as a hiding place for stolen items.

- Finished with antibacterial technology, which is incorporated into the powder coating for a cleaner locker.
- Sloping tops are also available (page 19).

Lock Options - page 27

Door Colours - page 13

ACTIVE COAT®

POST LOCKER

Allows sorted mail to be post-ed into secure compartments, which can only be accessed by the key-holder; with a master door for supervisor access or insertion of larger items.

- Choice of 10 or 15 door lockers.
- Individual doors are set within a main door, which is opened on its own, giving access to the compartment interior.
- Fitted with deadlock, with 2 keys.

Height -1778mm	
Width mm	Depth mm
381	457

VISION PANEL LOCKER

Incorporates a toughened polycarbonate view panel, set within a steel door and comes with an all-round edge - which allows you to see items stored in locker compartments without compromising on security.

- Available as 2, 3, 4, 6 or 8 doors.
- Fitted with deadlocks as standard.

Height -1800mm	
Width mm	Depths mm
300	300
	450

ACCESSORIES

SLOPING TOPS FOR LOCKERS

Sloping tops are essential in hygiene sensitive locations (such as hospitals and the food industry). The slope prevents items and litter being left on locker tops and makes cleaning easier. Sloping tops increase the overall height of the locker.

SUPPORT FRAME WITH SEAT

Seat units are incorporated into the locker frame, as well as slatted seats to the front. They can include a mesh shelf for footwear.

SUPPORT FRAMES

Locker support frames and seat units raise lockers off the floor, reducing impact damage and improving hygiene standards.

Support frames are manufactured from square steel tubes, welded and painted light grey as standard to match the lockers. Standard height is 150mm, and widths and depths are designed to match the locker installation.

BRIDGE UNITS

Fitted between adjacent lockers, the top unit incorporates a central full-length hanging rail, with the option of 'captive' clothes hangers (which cannot be removed), preventing theft and accidental loss. Quarto or Sixto lockers can be placed on top of the unit to create more storage space.

The base unit is a free standing rack to support footwear or other items 150mm above the floor.

DOOR NUMBERS

Tear-drop shaped number plate with black numbers on silver.

SELF ADHESIVE DOOR NUMBERS

Truncated circles, numbered 0-9. Black on silver.

NUMBERED KEY RINGS

Made in various coloured plastic and engraved and printed to any number and/or alpha character of your choice.

SPARE KEYS

Whether you've lost your existing locker key and need a replacement or want to order spare locker keys for additional users – we can meet every need.

SEATING & BENCHING

Comprehensive range of easy-to-install cloakroom units, with a wide choice of options and accessories, ensuring you will find exactly what you are looking for. All units are available in a choice of five exciting colours to match your interior. Hook Bench and Benches are available with 3 seat heights, making them the perfect solution for schools; whatever age group they teach.

- Finished with antibacterial technology, which is incorporated into the powder coating.
- Frames are constructed from robust 50mm round, thick wall tubing with welded joints for strength and durability.
- Adjustable feet fitted to all floor standing units.

Frame Colours

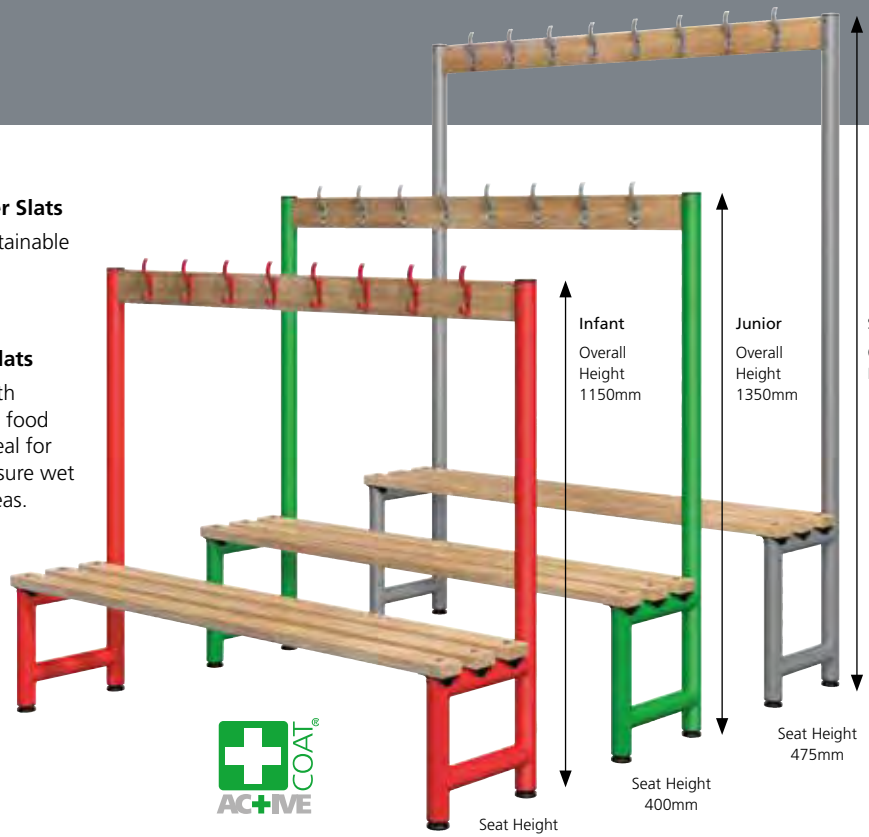
Silver | Red | Blue | Black | White | Yellow | Green

Ash Solid Timber Slats

Sourced from sustainable forests.

Black Polymer Slats

Manufactured with ActiveCoat; these food grade slats are ideal for educational or leisure wet area changing areas.



Double sided Ash 2000mm wide hook bench

HOOK BENCH

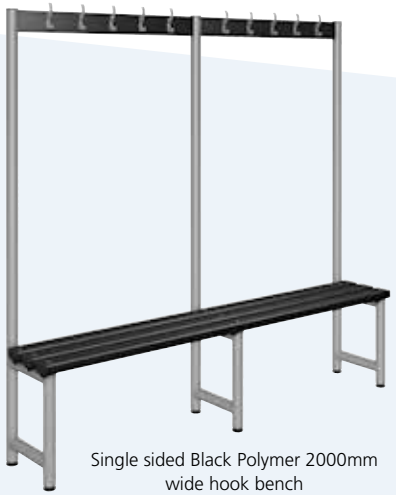
A single and double sided hook bench with 5, 8, 10, 16 or 20 hooks.

- Light Ash or Black Polymer slats.
- Anti-theft coat hangers.

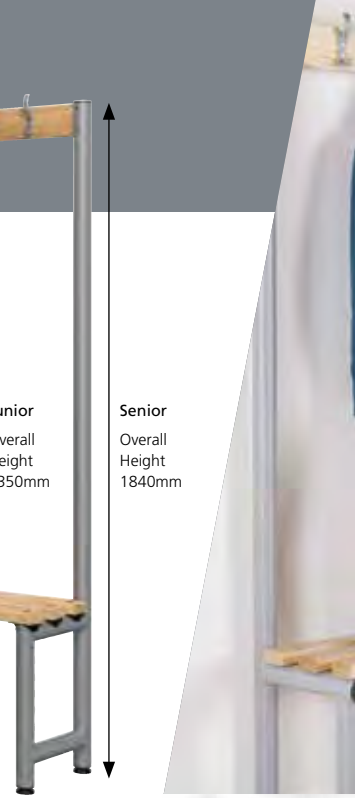
Heights - O/A 1150, 1350 or 1840mm Seat 350, 400 or 475mm	
Widths mm	Depths mm
1000	350
1200	720
2000	

SILVER & GREEN frames have silver hooks while WHITE frames feature black hooks.

RED, BLUE, BLACK & YELLOW frames are available with matching coloured hooks.



Single sided Black Polymer 2000mm wide hook bench

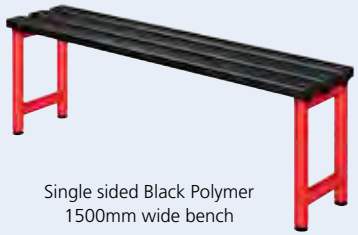


BENCH

Single and double sided modern cloakroom benches.

- Light Ash or Black Polymer slats.
- 50mm welded tubular frame.
- Complete with adjustable feet.

Heights - Seat 350, 400 or 475mm	
Widths mm	Depths mm
1000	350
1200	720
2000	



Single sided Black Polymer 1500mm wide bench

Double sided Ash 2000mm wide bench

OVERHEAD HANGING BENCH

Single and Double Sided Overhead Hanging Benches with captive coat hangers.

- Light Ash or Black Polymer slats.
- Anti-theft captive coat hangers.
- 50mm welded tubular frame.

Single sided Light Ash 1500mm wide overhead hanging bench

Double sided Black Polymer 1500mm wide overhead hanging bench

Heights - O/A 1840mm Bench seat 475mm

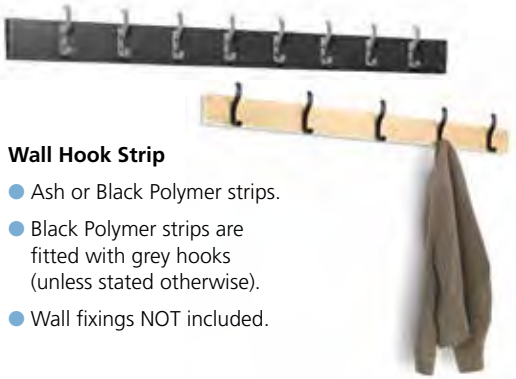
1000	350
1200	720
2000	

Our range of seating and benching also includes a range of cantilever units, seat & stands and seat units; all of which can be used to enhance the changing room experience.

Locker Seat & Stand

- Two hardwood slats and metal framework form a bench seat in front of the locker; allowing full height access.
- Complete with adjustable feet.



Wall Hook Strip

- Ash or Black Polymer strips.
- Black Polymer strips are fitted with grey hooks (unless stated otherwise).
- Wall fixings NOT included.

Shoe Baskets

Provides extra space by utilising under bench space.

- Silver grey - fixings NOT included.
- 305mm in height.

Wall Mounted Cantilever Seating

Low Seats

- Single or Double sided

Wall Mounted Shelf & Rail

LAMINATE DOOR LOCKER

If you're looking for a personal storage solution with a touch of elegance, then our range of laminate lockers is ideal. These stylish lockers are of the highest quality in terms of security, but they also add to the aesthetics of any environment.

Ideal for schools, hospitals, hotels and leisure facilities; these lockers can help create a sophisticated work place.

SOLID GRADE LAMINATE

Combines the versatility of steel lockers, with the durability of solid grade laminate doors.

Solid grade laminate material offers a robust, elegant solution with a range of colours and material designs, to satisfy all requirements.

- Available in 1, 2, 3 and 4 door configurations.
- Choice of plant-on doors which cover the front face of the locker body, creating a wall of colour, or inset doors which provide a visual contrast between the door finish and the locker frame.
- Solid 10mm Grade Laminate doors.
- Sloping tops are also available.
- Fitted with Camlock as standard. Also available with Hasp & Staple, Radial Lock, Combination Lock, Digital Combination Lock, RFID Lock or Coin/Token - Return or Retain.
- Optional matching end panels available.
- Silver powder coated body.

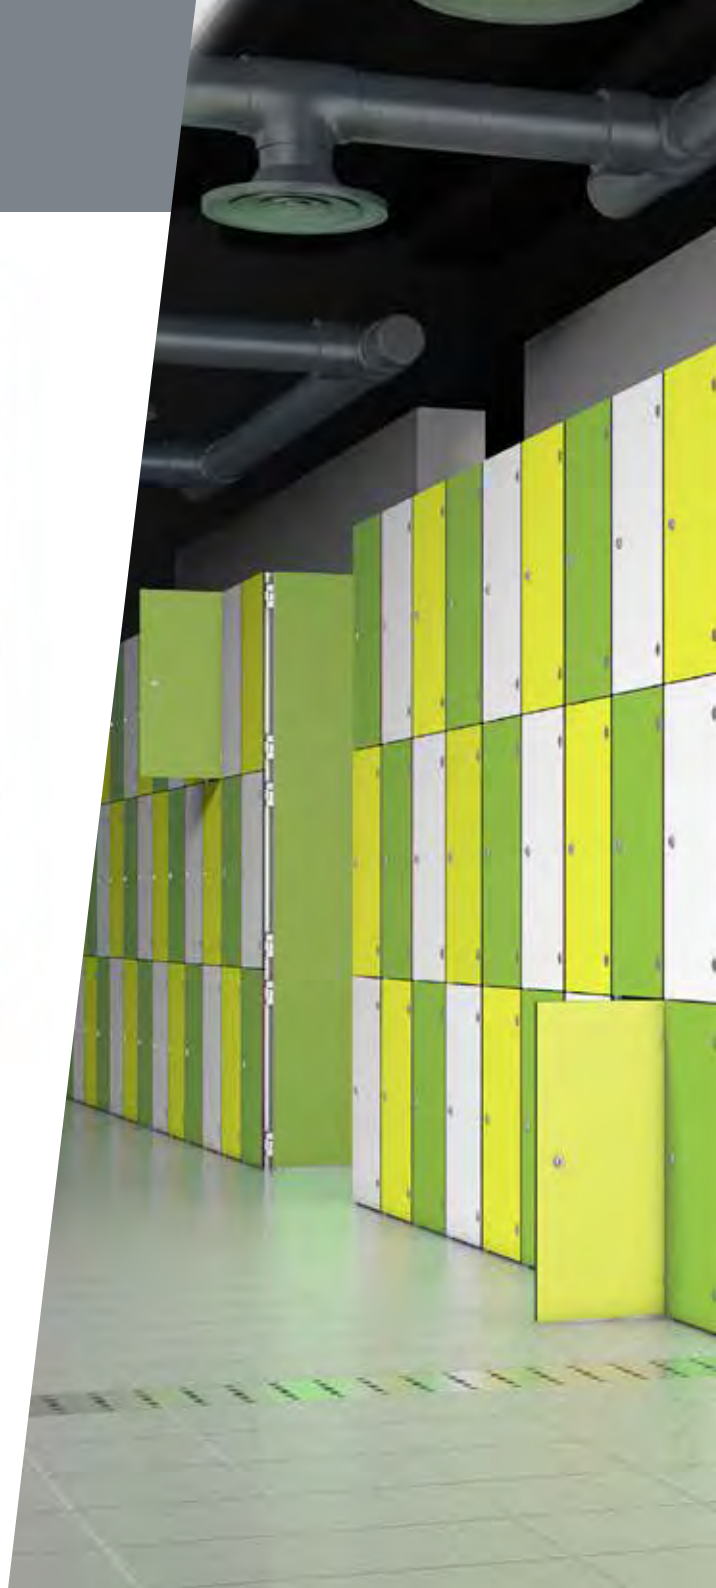
MDF Wood Laminate Finishes - Other finishes available



ALUMINIUM WET AREA LOCKER

The perfect choice for demanding environments; such as Leisure Centres, Swimming Pools, Schools, Golf Clubs, Gyms, Spas, Health Centres and the NHS.

Aluminium body allows full width shelf to back of locker. Aluminium shelves are fixed firmly into position, adding further rigidity to the locker.

- Available in 1, 2, 3, 4 and 6 door configurations.
- Body is manufactured from aluminium. Extruded aluminium door frames provide added rigidity.
- Solid 10mm grade laminate doors have no frames visible.
- Fitted with Camlock as standard. Also available with Hasp & Staple, Radial Lock, Combination Lock, Digital Combination Lock, RFID Lock or Coin/Token - Return or Retain. Also available with Wet Area Camlock, Combination Lock, Digital Combination Lock or Coin/Token - Return or Retain.
- Extra heavy-duty self-closing sprung hinges allow doors to open 105° in line with the locker body, in order to prevent the door opening across the adjacent compartment.
- A range of complimentary aluminium supports and bench supports are available.

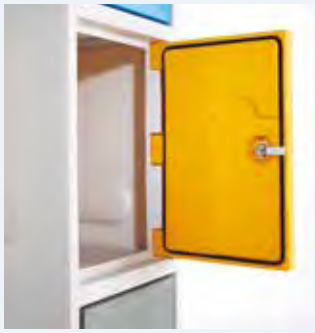
PLASTIC LOCKER

A robust and rust-proof polyethylene locker that is highly vandal resistant and ideal for wet area changing rooms and outdoor storage.

Often educational environments will use the half size locker option and place a colourful wall of lockers on outdoor corridors. Bags and books are quickly retrieved by pupils as they move to different classrooms. Plastic Lockers are also found in swimming pool areas where rust-resistance is a key requirement.

- Plastic lockers can either be used outside (but under cover), or can be equipped to be fully weather-proof, with the neoprene internal door seal and waterproof locks.
- Supplied fully pre-assembled - no on-site assembly.
- Made of polyethylene with antibacterial technology.
- Fitted with water resistant Camlock or waterproof hasp & staple as standard.
  Other locks available
  Dry Area: Combination Lock, RFID Lock, Digital Combination Lock.
  Waterproof: Camlock, Combination Lock, Digital Combination Lock or Coin/Token - Return or Retain.
- Lockers come with drain holes for cleaning.



This weather-proof polyethylene locker includes an internal neoprene door seal and waterproof locks that can withstand water jets equivalent to IP55 rating.

LOCK OPTIONS

STEEL LOCKER LOCK OPTIONS

We have an extensive range of locking options to meet almost any locker access requirement.

NEW Cardholder design arriving in 2018

Standard Deadlock

This simple and economical cam lock provides user access with a small, easily replaced key. The lock is supplied with two keys (a master key is available).

Hasp & Staple Padlock Fitting ✦

Transfers responsibility for locking to the user. The user is required to secure the locker with a padlock (not supplied). For increased security, a clutch operated version of the lock is also available, which only operates the cam once the padlock is removed and the handle fully depressed.

Four Tumbler Combination Lock

Ideal for facilities where keys are not desirable. The lock can be reset whenever it is open. This allows the locker to be used by several people at different times throughout the day, reducing the number of locker compartments required and the need for keys.

Digital Combination Lock

Simple-to-use, battery-operated keyless lock. Can be programmed for dedicated single-user or multi-user 'open access' mode. Personal entry code can be set and changed, whilst a preset master code ensures supervisor access.

Coin/Token Return

Ideal when lockers have 'shared' users. The key is released when coin or token is inserted. Key is captive again when the door is reopened and the coin token is returned to the user.

Coin/Token Retain Lock

Generates revenue from 'shared' user lockers. The key is released when coin or token is inserted. Key is captive again when the door is reopened. Coin/token is retained in the box.

OTHER DOOR LOCK OPTIONS

Available on Laminate SGL, Satin and Wood Effect doors. Also Aluminium and Plastic lockers.

Cam Lock*

Micro sprung 10 disc lock. Two keys are included with each standard lock.

Hasp & Staple* ✦

Attractive design allowing easy use of padlock fitting. Padlock sold separately.

Radial Pin Lock

Radial Pin lock offers a greater level of security.

Combination Lock*

4 digit code combination lock, making losing keys a thing of the past. Choice of single or multi-user operation.

Digital Combination Lock*

3000 serial combinations. Battery operated lock with a choice of single or multi-user operation.

RFID Digital Combination Lock*

Contactless RFID lock. Compatible with most wireless standards including RFID and NFC.

Coin/Token Return or Retain Locks*

Locks available with coin denominations £/€ or tokens, for either return or retain.

* Wet Area versions of these locks may have a different finish

✦ For use with padlock with shank diameters of between 5-7mm

WORKSTATION

These sloping top workstations offer a compact design and high work surfaces, enabling employees to use them comfortably whilst standing. Ideal for use in a wide range of environments; such as warehouses, factory floors, workshops and distribution.

- Strong robust construction with adjustable shelves, 3 point locking and reinforced doors.
- Additional lockable drawers and shelves available.
- All locks are supplied with two keys.
- Silver body with a choice of 7 door colours.
- ActiveCoat anti-bacterial finish making them ideal for food processing and hygiene sensitive environments.

Open Workstation

- Sloping top provides comfortable writing station while standing, and storage for unsecured items.
- 2 adjustable shelves.
- Lockable drawers available.

Standard Workstation

- Storage comprises of a cupboard with 2 adjustable shelves and 1 lockable drawer.

Medical Workstation

- White Medical workstation.
- Supplied with 2 drawers and 2 adjustable shelves.

PPE Workstation

- Workstation designed for secure central storage of PPE equipment.
- Supplied with 2 drawers and 2 adjustable shelves.

HAZARDOUS SUBSTANCE CUPBOARD

It is essential that employers and employees comply with their legal obligations under the 'Control of Substances Hazardous to Health' (COSHH) and 'Dangerous Substances and Explosive Atmospheres Regulations 2002' (DSEAR) workplace safety regulations.

Supplied with appropriate safety labelling, the highly visible yellow colour of the cupboards also ensures awareness of the potential danger of the materials stored.

- Epoxy powder coating in high-visibility yellow RAL 1003.
- Independently assessed to conform to HSG51 and SR24.
- Safety labelling in accordance with BS 5378.
- Fully welded integral sump to eliminate leakage and contain spillages up to 35ltrs (approx).
- Reinforced doors for added security.
- All units 790mm and above feature 3-point locking for additional security.
- Flush fitting handle for smaller cupboards under 770mm with Camlock as standard.

Height - 790mm	
Width mm	Depths mm
915	355
	505

Flush fitting handle for easier operation; eliminates risk of snagging when handling potentially hazardous substances. Door can be closed without the key being inserted on all 790mm plus units.

Adjustable shelves to maximise space for stored material.

Heights - 1905 or 1070mm	
Widths mm	Depth mm
915	505
477	

Height - 595mm	
Width mm	Depth mm
450	300

Height - 770mm	
Widths mm	Depths mm
300	300
450	355

Supplied with three high visibility labels. Simply choose the right label for the type of substance being stored:

- Harmful materials.
- Highly flammable.
- Corrosive materials.

Labels are approved to the new GSH and CLP signage.

LOUVRE PANEL CUPBOARD

Lockable cupboard fitted with louvre panel to rear, supplied with or without Linbin plastic containers; offering organised and secure storage for valuable small parts. Louvre panels accept most lipped plastic containers and spigots.

Very popular in the automotive industry and when the small parts are valuable (and need some additional security). Reinforced doors and 3-point locking add a greater level of security.

- Door vertical stiffening for added strength.
- Adjustable shelves on a 25mm vertical pitch.
- Shelves carry a maximum of 78kg UDL.
- Cabinet delivered fully assembled.

Three point locking as standard

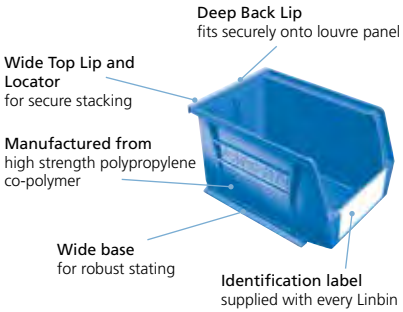
LOUVRE PANEL CUPBOARD COMPLETE WITH LINBINS

Cupboards are available in various sized Linbin containers (in a range of configurations).



CUPBOARD

Valuable goods and equipment used in any work environment can be safely locked away in our secure industrial storage cupboards. A versatile and robust range of steel cupboards providing secure storage in the workplace; meeting the stringent requirements of BS EN 14073:2004 (Parts 1, 2 & 3) and BS EN 14074:2004.

Cupboards are all available with a range of internal configurations, dependant on whether you require a small amount of larger compartments or several smaller compartments; we have the storage cabinet to meet your needs.

- Finished with antibacterial technology, making them ideal in hospitals or other hygiene sensitive environments.
- Vertical door stiffener for added strength.
- 3-point locking as standard.
- Adjustable shelves on a 25mm vertical pitch.
- Shelves carry a maximum of 78kg UDL.
- Semi-concealed hinges.

Heights - 984 or 1820mm	
Widths mm	Depth mm
915	505

STANDARD CUPBOARD

These strong, robust steel cupboards provide excellent durability and capacity for storage of items within a workplace environment.

Whether for use as an office or a factory cupboard; the product is designed to meet your requirements.

All cupboards (except Large Volume) feature a handle designed for easier operation; allowing the door to close without the key. Three point locking as standard.

Door Colours - page 13

ACTIVE COAT®

SECURITY CUPBOARD

Where valuable and potentially vulnerable materials or equipment are used in the workplace; the need for storage equipment with enhanced security becomes a necessity. Security cupboards benefit from an additional hasp and staple fitting.

Security cupboards benefit from an additional hasp and staple fitting, for use with a padlock (not supplied), as well as the standard 3 point locking.

Heights - 984 or 1820mm	
Widths mm	Depth mm
915	505

SLIMLINE CUPBOARD

The practical solution where storage space is limited. Slimline cupboards provide secure storage in a compact 'footprint' of only 615 x 505mm.

With the same all-steel design and features of standard cupboards, Slimline cupboards are available with various internal configurations.

Height - 595mm	
Width mm	Depth mm
450	300

Height - 595mm	
Width mm	Depth mm
450	300

VISION CUPBOARD

Vision cupboards show visible items, but doesn't compromise on quality.

Based on the standard all-steel cupboards; with the addition of toughened polycarbonate view panels, set within a steel door (which has an all-round strengthened edge).

Height - 595mm	
Width mm	Depth mm
450	300

LARGE VOLUME CUPBOARD

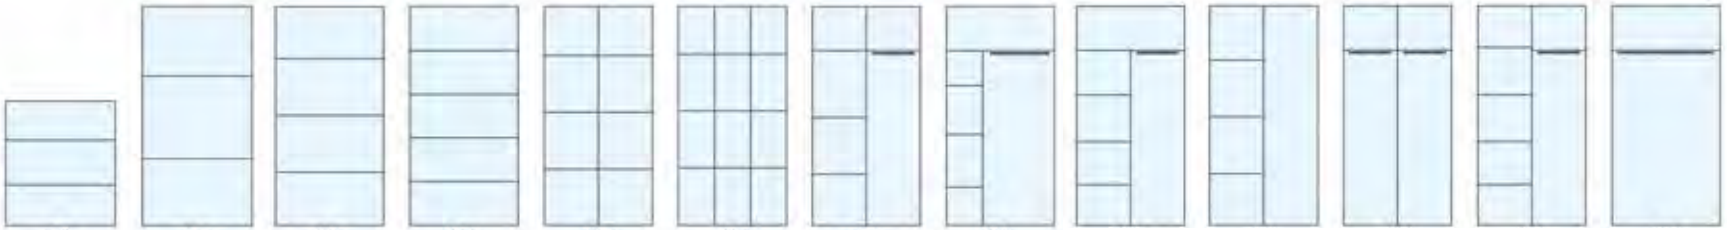
As the name suggests, these are the largest of our cupboard range; offering spacious storage for awkward and bulky items.

- Shelves supported on clips, adjustable in 25mm increments.
- Semi-concealed hinges.
- Magnetic door catches.
- Vertical door stiffener for added strength.
- Robust, all-steel construction.

High quality metal lock operates the 3 point locking system

Internal Layouts

Standard, Security, Vision, Slimline and Large Volume cupboards are all available in the internal configurations shown below. These offer a range of solutions to meet workplace requirements.



TOOL CUPBOARD

Versatile tool cupboards in four overall sizes, that come with various combinations of painted drawers and galvanised shelves.

All cupboards feature a secure barrel lock, operating a 3-point locking system.

- Door has vertical stiffening for added strength.

Heights - 984 or 1820mm
